- Specialization: Software Development and Infrastructure Management
- General area of study: 3 years of experience in IT
- Certification: Technical Baccalaureate

SISE INSTITUTE | INTERMEDIATE ENGLISH

- Specialization: Technical English for IT Specialists
- General area of study: Languages
- Certification: SISE Intermediate English

Experience

BACKEND DEVELOPER | COMPINA S.A.C. | APRIL 2022 – JUNE 22

- At this company, I was in charge of the backend development of a CMR system for its internal infrastructure. I participated in the system design and was part of a team that worked under the SCRUM methodology, using technologies such as Node.js, Express.js, MySQL and Git.

FRONTEND DEVELOPER | COMPIPRO S.A.C. | JULY 2022 – SEPTEMBER 2022

- Developed optimized web interfaces with Astro, React, Tailwind CSS, and TypeScript, focusing on performance and accessibility. Implemented SSR, CSR, and caching to improve the user experience. Optimized deployments and security using Cloudflare Pages.

RPA DEVELOPER | DATA DISCOVERY SOLUTIONS S.A.C. | OCTOBER 2022 – APRIL 2023

- At this company, I developed and implemented RPA robots with Rocketbot Studio, optimizing processes with JavaScript, Python, and Excel. I automated repetitive tasks, improving operational efficiency and systems integration. I was also trained and certified in the Rocketbot Studio tool.

FULL STACK DEVELOPER | IB GROUP S.A.C. | APRIL 2023 – APRIL 2024

- Developed and maintained the company's web infrastructure with Angular, ASP.NET Core, and Microsoft SQL Server, ensuring stability and performance optimization. I managed local and cloud servers, implemented version control with Git, and improved the user experience by applying UI/UX best practices.

SOFTWARE DEVELOPER | BLACKMOUNT CORPORATION E.I.R.L. | APRIL 2024 – PRESENT

- As a Software Developer, I designed the architecture of all the company's SaaS and PaaS products, focusing on scalability, performance, and security. I led the development of ERP systems, optimizing frameworks and cloud solutions with Next.js, MongoDB, and Azure, aligning the infrastructure with the company's strategic vision.
